

Announcements

The midterm is next week.

- Read the detailed info on our Tests page.

We didn't do the worksheet on Running Time Efficiency

- I'll post a video that does it in detail

Reading week is coming!!!!

Computer Science Undergrads

Welcome! This Quercus course is a place for you to find job and professional opportunity postings and information about upcoming events. We will also use it to share announcements with you.

If you're not currently enroled in this Quercus course but would like to be, please [click this link to enrol](#).

Here are [instructions](#) for adjusting your notification settings for particular courses in case you want to receive more or fewer email notifications.

Incoming CS & Hoft events

Being in the loop: Read the CS Undergrad Newsletter

*** CS Undergrad Update ***

*** Upcoming Research Opportunities ***

Applications are open for three CS undergraduate research opportunities:

Preparation for Research through Immersion, Skills, and Mentorship (PRISM)

Thursdays in the Winter term; apply by December 20, 2021

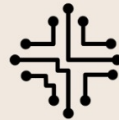

The ability to take part in world-class research projects is one of the most exciting opportunities at a major research university, but it may not be obvious how to get started. PRISM is a new program for second-year and third-year undergraduates

Tea Time
WITH PROFESSORS

Thursday . 10th . Feb . 22
3:30 PM - 5:00 PM
