The tree in our BST. delete docstring:

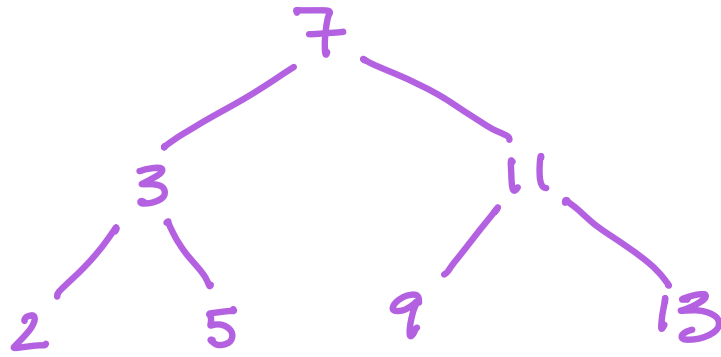

```
          7
        /   \
       3     11
      / \   /  \
     2   5 9    13
```

Be sure you know how to translate from the code that creates a BST "by hand" (as in our doctest examples) to a drawing like this, and vice versa.
